

2 Fold Sofa Bed Mechanism With Seat Cushion Stay

You can rest assured to buy 2 fold sofa bed mechanism with seat cushion stay from our factory and LINKREST will offer you the best after-sale service and timely delivery. This 2 fold sofa bed mechanism with seat cushion stay can accommodate very thick cushion, so it is very beneficial to the North American market. The mattress is locked well under the folding pressure and the side angle rail, so the angle rail system has better ride comfort. The very thick cushion is zippered to the mechanism for indoor decoration.

Product Description

Bi Fold Sofa Sleeper Mechanisms

LINKREST is one of the professional **2 Fold Sofa Bed Mechanism With Seat Cushion Stay** manufacturers and suppliers in China. Already for many years in the market worldwide, such as European, North American, Australia, New Zealand, Africa, Asia and Latin American areas. LINKREST is regarded as a reliable partner of the most important sofa bed mechanisms manufacturer. This thanks to the carefully quality control, our passion to focus on innovations, our professional service and the possibility to offer tailor-made solutions.

2 Fold Sofa Bed Mechanism with Seat Cushion Stay Features & Benefits:

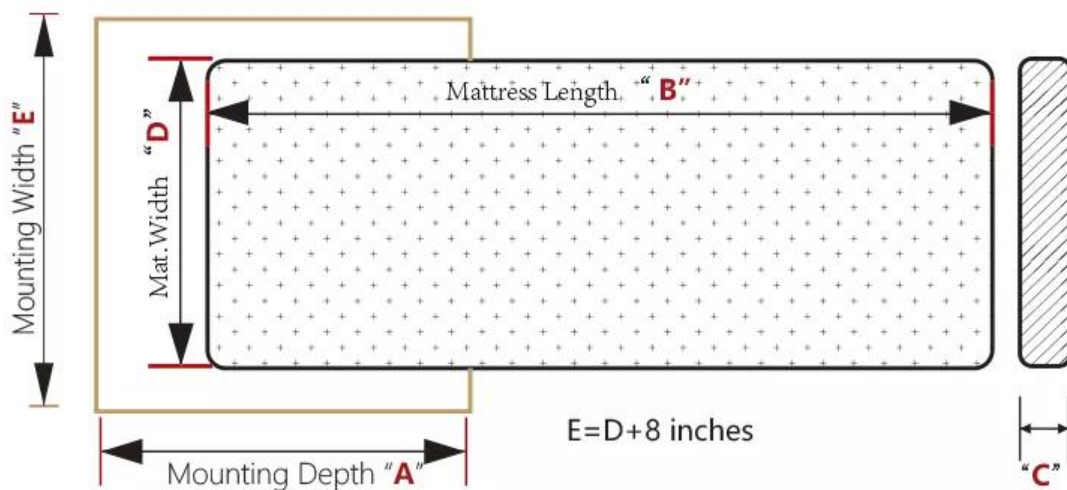

1. This mechanism can hold very thick seat cushion, therefore this is very good for North America market. Very Thick Cushion is zippered to mechanism for easy upholstery.
2. Operation for everyday with mattress length 75".
3. Option for metal grid, polydeck and slats.
4. Fit to loose back and tight back styles.
5. Angle-iron frame for a long cycles of operation with shorter rivets and flat to flat movement.

6. Heat treatment steel for front side rails to prevent the frame from bending when people sit at the end of bed time to time.
7. Anti-tilt system is riveted inside for a safe operation everyday.
8. The mattress is well locked both from folded pressure and side angle-iron rails,so angle rail system has a better sitting comfort.
9. Less cross bar feeling compared to tubular sleeper system because the cross bar is more close to the headrest.
10. More heavy weight loading capacity due to angle-iron system.
11. 2000 cycles of test for everyday operation.
12. Less joints friction to open and close easily.
